OUR PHYSICIANS

DONALD DOUGLAS, M.D.

General Orthopedics

Specialty: Sports Medicine, PRP Therapy

Education: Pennsylvania State University, Temple University School of Medicine

Dr. Douglas began in private practice in 1987 and has since become active in sports medicine and the treatment of athletes at all levels. Currently, his practice focuses on the treatment of sports injuries and conditions of the knee and shoulder. He holds a CAQ (Certificate of Added Qualification) in Sports Medicine.

PETER L. GAMBACORTA, D.O.

General Orthopedics

Specialty: Sports Medicine

Education: University at Buffalo, New York College of Osteopathic Medicine

Dr. Gambacorta is a board certified orthopedic surgeon with advanced fellowship training in sports medicine. His practice focuses on the management of acute and overuse injuries of the musculoskeletal system in children, adolescents, and adults.

PATRICK HLUBIK, M.D.

General Orthopedics

Specialty: Total Joint Replacement

Education: Georgetown University, Georgetown University School of Medicine

Dr. Hlubik focuses his practice in the area of general orthopedics with a special interest in the treatment of osteoarthritis and joint replacement. He sees patients with a wide variety of orthopedic problems, including shoulder, elbow, wrist, hand, hip, knee, ankle, and foot pain.

KEVIN W. LANIGHAN, M.D.

Specialty: Hand and Upper Extremity Surgery

Education: Niagara University, Johns Hopkins School of Medicine

Dr. Lanighan is an orthopedic surgeon with fellowship training in surgery of the arm and hand, and he specializes in the care of the upper extremity. He is a recognized expert in hand surgery and specializes in state-of-the-art, minimally invasive techniques, including endoscopic and arthroscopic surgery and the care of carpal tunnel syndrome and thumb pain, in addition to wrist, elbow and shoulder problems.

THOMAS LOMBARDO, M.D.

General Orthopedics

Education: College of the Holy Cross, University at Buffalo School of Medicine

Dr. Lombardo started his private practice in Buffalo in 1979. He is an emeritus member of the American Association of Hip and Knee Surgeons. He now focuses on the care and treatment of patients needing general orthopedics. He is also Chairman of the Department of Orthopedic Surgery at Millard Fillmore Hospital, as well as President of the Erie County Medical Society.

FRANK A. LUZI, M.D.

General Orthopedics

Specialty: Total Joint Replacement

Education: Lafayette College, University at Buffalo School of Medicine

Dr. Luzi has extensive experience with total joint arthroplasty and arthroscopy, along with general orthopedics. He has a vast understanding of the New York State Workers' Compensation System and is highly sought after for his expertise in this area.

DAVID T. MILLER, M.D.

General Orthopedics

Specialty: Total Joint Replacement

Education: University at Buffalo, University at Buffalo School of Medicine

Dr. Miller performs more than 350 adult reconstructive surgeries per year, including total hip replacements, total knee replacements, and partial knee replacements. He also performs arthroscopy of the knee and shoulder. He is available to treat fractures of the extremities, as well.

DAVID J. POCHATKO, M.D.

Specialty: Foot and Ankle Surgery

Education: Canisius College, University at Buffalo School of Medicine

Dr. Pochatko specializes in the surgical and nonsurgical treatment of the foot and ankle and is one of the few fellowship-trained foot and ankle surgeons in Buffalo and Western New York. He focuses on treating conditions such as bunions, hammertoes, flatfoot deformities, ankle and foot fractures, and Achilles tendon problems and injuries, as well as ligament instabilities.

MATTHEW J. ZINNO, D.O.

Specialty: Sports Medicine, Shoulder and Knee Surgery, PRP Therapy

Education: University of Notre Dame, Drake University, Des Moines University

Dr. Zinno is an orthopedic surgeon who treats a wide variety of orthopedic injuries and has advanced fellowship training in sports medicine. This includes all knee conditions, ACL and other ligament tears, meniscal tears, total knee replacement, and all shoulder conditions. He also provides interventions for all common sports-related injuries including corticosteroid, and platelet-rich plasma (PRP) and bone marrow/stem cell therapies. For many years, he has participated in IRONMAN distance triathlons, which gives him a unique perspective for injured patients who want to return to an active lifestyle.
